Happy Birthday

Sept. 22nd Kenzie

Upcoming Events

Sprit Week - Details to come
Sept. 15th - Color Run
Sept. 21st - Early Release at 12:10
Sept. 25th - Portland Party Store in-class activity

This Month's Focus

This month the class will be using their senses to learn about apples! Along with that we will be introducing our classroom rules, problem solving solutions and classroom jobs. Be on the lookout for parent letters on these topics.

We will also be introducing letters using the Wonders program which is used in our upper elementary classes. We are excited to be a part of it and giving our preschoolers a peek into this great program. Aa, Ss and Pp are the letters we will start with.

We have already started talking about the color red and the different shades it has, the number zero and the circle shape.

Below are some of the activities the children will be doing this month!

Math:

Students will be weighing and measuring apples, counting seeds and sorting. Children will be able to taste different types of apples and graph their favorite and least favorite. We will be starting our linear calendar and counting the days of the month and number of days in school.

Science:

We will be doing lots of experiments this month with apples. Discussing sink vs float and making apple volcanoes.

An apple investigation will happen were the children will be exploring the inside and outside of an apple. We will also be learning the different parts and life cycle of the apple.

Literacy & Writing:

We will be making applesauce using a recipe, reading apple books and writing in their apple journals. We will continue to write their names daily and having them read and answer the question of the day.

Passport Stamp:

Ms. Jennifer from the Portland Party Store will be coming in to talk about being a baker and showing them how to decorate apple donuts. More information will be coming home soon.
